TARGET: HORIZON-CL3-2026-02-CS-ECCC-02 |
SecureAI | EUR 21.2M

Three Differentiators

Operational AI Risk Intelligence

- ▶ 250+ published cybersecurity briefings since 2023
- ▶ ARIA brand: practitioner-grade AI governance analysis
- ▶ AI Act compliance gap identification
- ▶ Adversarial attack pattern research

NIS2 & EU Regulatory Expertise

- ▶ Deep NIS2 implementation analysis across EU states
- ▶ ISACA European Advocacy Task Force member
- ▶ Published ISACA Denmark: BankID/eIDAS 2.0 analysis
- ▶ CRA, DORA, GDPR cross-regulatory knowledge

Global South Dimension

- ▶ Africa/MENA cybersecurity dynamics expertise
- ▶ Pan-African digital infrastructure security research
- ▶ Emerging-market AI deployment threat models
- ▶ Perspective no other EU consortium offers

Building the SecureAI Consortium

01

AI/ML Research Laboratory

- ▶ Adversarial machine learning expertise
- ▶ Federated learning security
- ▶ Privacy-enhancing technologies
- ▶ Prior Horizon Europe experience preferred

02

Security Testing Organisation

- ▶ AI model red-teaming capability
- ▶ Penetration testing of AI-integrated systems
- ▶ Reproducible security benchmarks
- ▶ Evaluation infrastructure

03

EU SME(s) with Domain Expertise

- ▶ Critical infrastructure operations
- ▶ Healthcare AI or financial services AI
- ▶ Real-world validation environments
- ▶ NIS2-regulated sector experience

We are flexible on coordination — can lead or contribute as WP lead on threat intelligence, regulatory analysis, and Global South deployment scenarios.
